

## **Rotodyne Asselbergs takes over Kiekens Ventilatoren**

With effect from October 1st, 2020, Rotodyne Asselbergs has taken over the entire range of Kiekens industrial fans, Almelo. This is now being produced and supplied by Rotodyne Asselbergs in Venray.

The name Kiekens is still used for a certain time by Rotodyne Asselbergs for the industrial fan business.

Kiekens ended its activities in the field of industrial fans on October 1st, 2020 and will focus entirely on the business with dedusting systems in the future.

For Rotodyne Asselbergs, the takeover of Kiekens represents another important step in its growth strategy after the takeover of Asselbergs in 2012.
